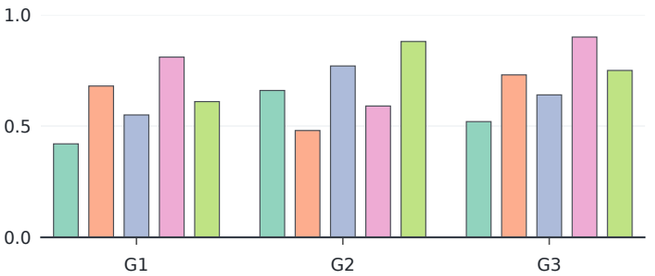
Shortlist / visual selection after diagnostic screening

Same data and geometry | white background | LAYOUT TEST - synthetic values

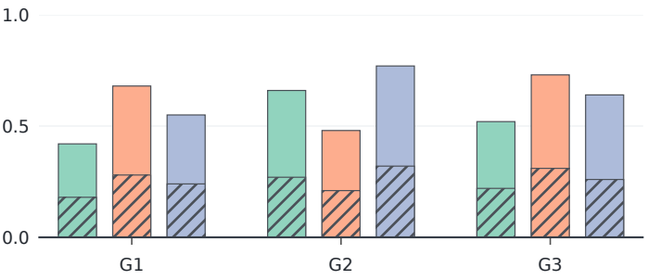
P002 Set2 a=0.72

5 series / grouped / prefer 3 series



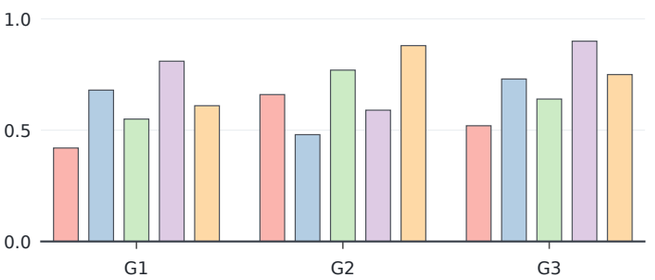
P002 Set2 a=0.72

3 series / lower region hatched



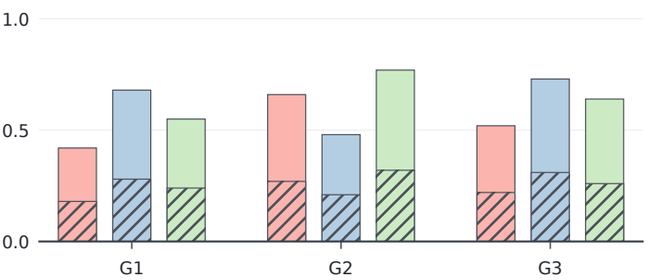
P015 Pastel1 a=1

5 series / grouped / prefer 3 series



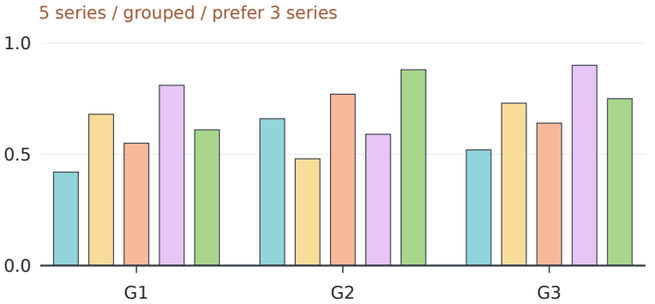
P015 Pastel1 a=1

3 series / lower region hatched



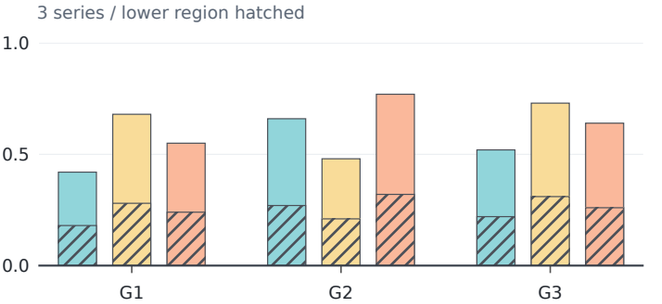
P022 Pastel a=0.72

5 series / grouped / prefer 3 series



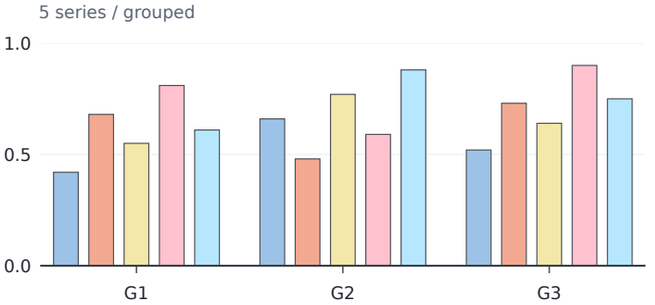
P022 Pastel a=0.72

3 series / lower region hatched



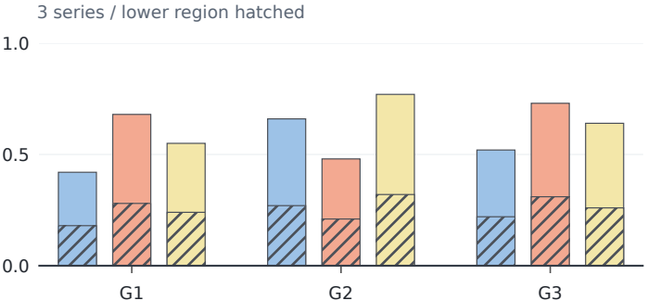
P040 light a=0.72

5 series / grouped



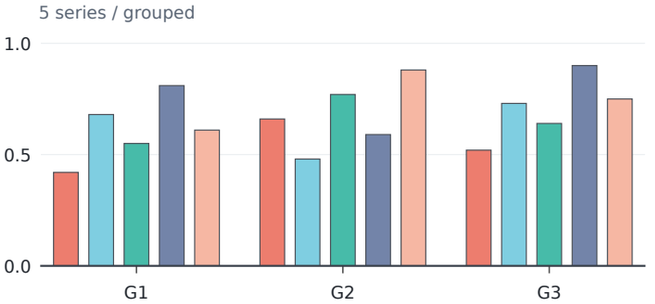
P040 light a=0.72

3 series / lower region hatched



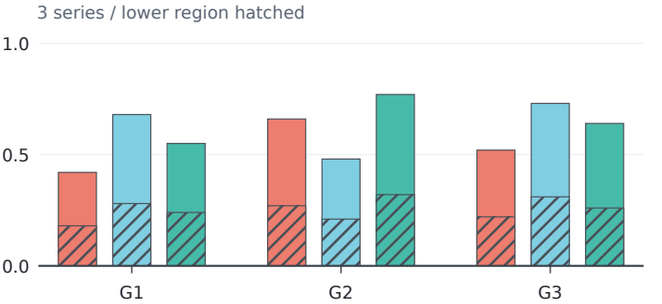
P026 NPG a=0.72

5 series / grouped



P026 NPG a=0.72

3 series / lower region hatched



Colour distance is a diagnostic, not a beauty score. Lower hatching: independent overlaid heights.
